

SANIJEMS FOAM SAFETY DATA SHEET

Based on REACH-regulation (EC) 1907/2006

SECTION 1: IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND COMPANY

1.1 Product identifier SaniJems Foam
(Stabilised Hydrogen Peroxide with surfactant & scent)

1.2 Intended use Hand Sanitiser

1.3 Supplier details Jem Products Ltd
Unit 20, Sycamore Trading Estate
Blackpool,
Lancashire, FY4 3RL

1.4 Emergency telephone number NHS 111 or 999

SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification in accordance with Regulation (EU) 1272/2008 (CLP):
Not Hazardous

2.2 Label elements

Labeling in accordance with Regulation (EU) 1272/2008 (CLP):

Hazard pictograms: N/A

Signal word: N/A

Hazard statements: N/A

Precautionary statements:

Prevention:

P102+P405 Store locked up and out of reach of children.
P235+P410 Keep cool and out of direct sunlight.

Response:

P301+P330+P313 IF SWALLOWED: Rinse mouth, get medical advice/attention.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

SANIJEMS FOAM SAFETY DATA SHEET

Based on REACH-regulation (EC) 1907/2006

P332+P353
P314

If skin irritation occurs rinse with water/shower.
Get medical advice/attention if you feel unwell.

2.3 Other Hazards

Physical/Chemical Hazard:

- Risk of decomposition on heating.
- Risk of decomposition in contact with incompatible products: metal oxides, metal ions (e.g. Mn, Fe, Cu, Ni, Cr, Zn), metal salts, bases and reducing agents.

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substance

N/A

3.2 Mixture

International Chemical Identification	EC No.	CAS No.	%
water	231-791-2	7732-18-5	90.7 – 97.1
surfactant (proprietary, non-hazardous)	-	-	2 - 8
hydrogen peroxide solution ... %	231-765-0	7722-84-1	0.8 - 1.2
citronella oil	616-771-7	8000-29-1	≤0.1

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Skin contact

If skin irritation occurs wash with water.

Eye contact

If irritation occurs, rinse immediately with plenty of water, including under the eyelids, for at least 15 minutes. Remove contact lenses if possible and continue rinsing. Seek medical attention if irritation persists.

Ingestion

Rinse mouth. Give small amounts of water to drink. Do not induce vomiting. Never give anything by mouth to an unconscious person. Keep warm. Seek medical attention immediately.

Ensure injured person(s) are removed from contaminated area before treatment.

SANIJEMS FOAM SAFETY DATA SHEET

Based on REACH-regulation (EC) 1907/2006

4.2 Most important symptoms and effects

Possible irritant for sensitive skin and eyes.

4.3 Indication of any immediate medical attention and special treatment

Symptomatic treatment.

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

The product itself does not burn – use extinguishing media suitable to scenario/surroundings. Water or water spray/mist are preferred as they will also dilute the product.

5.2 Special hazards arising from the substance or mixture

In case of fire, hydrogen can generate oxygen what can contribute to the intensity of the fire. The product itself does not burn but it sustains the combustion of combustible material. Risk of explosion if mixed with combustible material. Pressure build-up in confined space (risk of decomposition).

5.3 Advice for firefighters

Wear self-contained breathing apparatus (SCBA) and full protection chemical suit.

5.4 Specific methods

Cool product containers / tanks with water spray.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

No PPE required for intended use.

6.2 Environmental precautions

Prevent undiluted product from entering drains.
Should not be released into the environment.

6.3 Methods and materials for containment and cleaning up

Prevent from spreading, use dam equipment as necessary.
Diluted solution can be washed into drains with plenty of water.
Contact the relevant local authorities.
Do not return spilled product to containers for re-use.

6.4 Reference to other sections

N/A

SECTION 7: HANDLING AND STORAGE

SANIJEMS FOAM SAFETY DATA SHEET

Based on REACH-regulation (EC) 1907/2006

7.1 Precautions for safe handling

Open container carefully in case of pressure build up.
Never return unused product to container for re-use.

7.2 Conditions for safe storage, including any incompatibilities

Keep in a cool, well-ventilated place and out of direct sunlight. Keep away from heat, sources of ignition and combustible materials. Condition of containers should be checked regularly. Store in original container where possible, if transferred store in a clean receptacle equipped with a vent. Storage containers/vessels should be stainless steel or plastic (PVC/HDPE/PET preferred).

Materials to avoid: combustible material, reducing agents, organic materials, bases, metal oxides, metal ions (e.g. Mn, Fe, Cu, Ni, Cr, Zn), metal salts, rust, dirt.

7.3 Specific end uses

Product specific for hand sanitizer use only.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters

DNEL hydrogen peroxide: MAC-value 1 ppm 1,4 mg/m³ (human, inhalation, long-term)

PNEC hydrogen peroxide: 0.0126 mg/l (fresh water)

PNEC hydrogen peroxide: 0.0126 mg/l (marine water)

PNEC hydrogen peroxide: 0.0023 mg/kg (soil)

PNEC hydrogen peroxide: 4.66 mg/l (STP)

8.2 Exposure controls

Appropriate engineering controls;

Ensure availability of safety showers/eyewash stations/running water local to handling areas.

Ensure adequate ventilation in work area.

Ensure suitable workspace for handling containers and product including pouring between receptacles.

All receptacles and wetted transfer equipment must be free of contamination and of suitable materials of construction.

Environmental exposure controls;

All vessels/containers should be adequately banded.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical state: Liquid

Color: Colorless

Odor: Citrus

pH: < 7

SANIJEMS FOAM SAFETY DATA SHEET

Based on REACH-regulation (EC) 1907/2006

Freezing point:	-1 °C
Boiling point:	101 °C
Flash point:	Not flammable
Evaporation rate:	For H ₂ O ₂ , > 1 (n-butyl acetate = 1)
Flammability (solid, gas):	N/A
Upper/lower flammability or explosive limits:	N/A
Vapour pressure:	Not known
Vapour density:	Not known
Density:	<1.100 kg/m ³ (@ 15 °C)
Solubility in water:	Completely soluble
Part. Coeff. n/octanol/water:	Log P _{ow} : -1.57 (for 50% H ₂ O ₂)
Auto-Ignition temperature:	N/A
Decomposition temperature:	N/A
Viscosity:	1.005 cP @ 20°C
Oxidizing:	May intensify fire; oxidizer

9.2 Other data

N/A

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity

Danger of decomposition when in contact with avoidable substances. Danger of explosion in closed systems as result of pressure buildup. Danger of decomposition upon heating.

10.2 Chemical stability

The product is stabilized. It decomposes upon heating.

10.3 Possibility of hazardous reactions

See section 10.1.

10.4 Conditions to avoid

High temperatures. UV light. Protect from contamination.

10.5 Incompatible materials

Materials to avoid: combustible material, reducing agents, organic materials, bases, metal oxides, metal ions (e.g. Mn, Fe, Cu, Ni, Cr, Zn), metal salts, rust, dirt.

10.6 Hazardous decomposition products

Decomposes into oxygen and water. Vapor may originate during decomposition.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

SANIJEMS FOAM SAFETY DATA SHEET

Based on REACH-regulation (EC) 1907/2006

Inhalation: Not classified at 1.0%w/w H₂O₂
Skin contact: “
Eye contact : “
Swallowing: “
Sensibilisation: “

Of hydrogen peroxide the following toxicity data/numerical measures are available:

LD₅₀ (rat, oral): >500 mg/kg (50% concentration)
LC₅₀ (rat, inhalation, 4h): 2000 mg/m³
LD₅₀ (rat, dermal): >4000 mg/kg (50% concentration)

SECTION 12: ECOLOGICAL INFORMATION

12.1 Ecotoxicity

Not classified for 1.0%, data provided for 50% w/w H₂O₂:

Aquatic toxicity;

LC₅₀/96 h/Pimephales promelas: 22 - 33 mg/l

LC₅₀/48 h/ Leuciscus idus: 35 mg/l

EC50/ Daphnia: 2.4 – 7.7 mg/l

Toxicity to other organisms;

EC50/30 min/activated sludge/Respiratory inhibition of activated sludge/OECD test guideline 209:
466 mg/l.

EC50/3 h/activated sludge/Respiratory inhibition of activated sludge/OECD test guideline 209:
> 1000 mg/l.

12.2 Persistence and degradability

Biological degradability: Hydrogen peroxide is readily biodegradable.

Chemical degradation: Decomposes into oxygen and water.

12.3 Bio-accumulative potential

Bioaccumulation is unlikely, given the low partition coefficient n-octanol/water (see SECTION 9).

12.4 Mobility in soil

See vapor pressure and solubility in water in SECTION 9. However, hydrogen peroxide will react directly when in contact with organic materials.

12.5 Results of PBT- and vPvB assessment

Hydrogen peroxide is not considered to be persistent, bio-accumulating and toxic (PBT).

Hydrogen peroxide is not considered to be very persistent and very bio-accumulating (vPvB).

12.6 Other adverse effects

No data available.

SECTION 13: DISPOSAL CONSIDERATIONS

SANIJEMS FOAM SAFETY DATA SHEET

Based on REACH-regulation (EC) 1907/2006

13.1 Waste treatment methods

Product: The product should be used completely. Rinse empty packaging thoroughly with water prior to disposal. Waste product can be flushed to drain with excess of water.

Packaging: All packaging is widely recycled (PE type 1 or 2), consult with local waste authorities. Ensure packaging is thoroughly rinsed with water (internally & externally) before disposal. Empty packaging should not be used for other purposes.

SECTION 14: TRANSPORT INFORMATION

Product is not regulated for transport.

14.1 UN-number: N/A

14.2 Proper shipping name: N/A

14.3 Transport hazard class: N/A

14.4 Packing group: N/A

14.5 Environmental hazards: Not a marine pollutant

14.6 Special precautions for user: Yes – protect from heat.

14.7 Transport in bulk:

Product is not intended for transport in bulk as per Annex II of MARPOL 73/78 and the IBC code.

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

The safety information of this SDS is based on Regulation (EU) 1272/2009 (CLP).

15.2 Chemical Safety Assessment

The chemical safety is based on the registration of this product and general safety information of Hydrogen Peroxide.

SECTION 16: OTHER INFORMATION

SANIJEMS FOAM SAFETY DATA SHEET

Based on REACH-regulation (EC) 1907/2006

This information only concerns the above mentioned product and does not need to be valid if used with other product(s) or in any process. The information is correct and complete to our best present knowledge and is given in good faith but without warranty. It remains the user's own responsibility to make sure that the information is appropriate and complete for his special use of this product. It is recommended that the information of this safety data sheet is handed to all personnel.

Education advice: For professional use only. Always read the label and MSDS before use.
Sources used: Regulations, databases, literature, studies.
History/revisions: See footnote of this document.
