

WaterJems pH Increaser

Version 9.0

Print Date 2019/08/07

Revision date / valid from 2019/08/07

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name : SODIUM CARBONATE SOLID (PH INCREASER)
Substance name : sodium carbonate
Index-No. : 011-005-00-2
CAS-No. : 497-19-8
EC-No. : 207-838-8
EU REACH-Reg. No. : 01-2119485498-19-xxxx

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture : Identified use: See table in front of appendix for a complete overview of identified uses.
Uses advised against : At this moment we have not identified any uses advised against
Remarks : Before referring to any Exposure Scenario attached to this Safety Data Sheet please check the grade of the product: the Exposure Scenarios presented are not related to all product grade

1.3. Details of the supplier of the safety data sheet

Company : Jem Products Ltd
Unit 20 Sycamore Trading Estate
Blackpool
Lancashire
FY4 3RL

1.4. Emergency telephone number

Emergency telephone number : NHS 111 or 999

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

REGULATION (EC) No 1272/2008

WaterJems pH Increaser

Hazard class	Hazard category	Target Organs	Hazard statements
Eye irritation	Category 2	---	H319

For the full text of the H-Statements mentioned in this Section, see Section 16.

Most important adverse effects

- Human Health : See section 11 for toxicological information.
- Physical and chemical hazards : See section 9/10 for physicochemical information.
- Potential environmental effects : See section 12 for environmental information.

2.2. Label elements

Labelling according to Regulation (EC) No 1272/2008

- Hazard symbols : 
- Signal word : Warning
- Hazard statements : H319 Causes serious eye irritation.
- Precautionary statements
- Prevention : P264 Wash skin thoroughly after handling.
P280 Wear eye protection/ face protection.
- Response : P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 If eye irritation persists: Get medical advice/ attention.

Hazardous components which must be listed on the label:

- sodium carbonate

2.3. Other hazards

For Results of PBT and vPvB assessment see section 12.5.

WaterJems pH Increaser

SECTION 3: Composition/information on ingredients

3.1. Substances

Hazardous components	Amount [%]	Classification (REGULATION (EC) No 1272/2008)	
		Hazard class / Hazard category	Hazard statements
sodium carbonate			
Index-No. : 011-005-00-2	>= 90 - < 100	Eye Irrit.2	H319
CAS-No. : 497-19-8			
EC-No. : 207-838-8			
EU REACH- : 01-2119485498-19-xxxx			
Reg. No.			

For the full text of the H-Statements mentioned in this Section, see Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

- General advice : Take off all contaminated clothing immediately.
- If inhaled : Remove to fresh air. If symptoms persist, call a physician.
- In case of skin contact : Wash off immediately with soap and plenty of water. If skin irritation persists, call a physician.
- In case of eye contact : Rinse immediately with plenty of water, also under the eyelids, for at least 5 minutes. Consult an eye specialist immediately. Go to an ophthalmic hospital if possible.
- If swallowed : Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

4.2. Most important symptoms and effects, both acute and delayed

- Symptoms : See Section 11 for more detailed information on health effects and symptoms.
- Effects : See Section 11 for more detailed information on health effects and symptoms.

4.3. Indication of any immediate medical attention and special treatment needed

- Treatment : Treat symptomatically.

SECTION 5: Firefighting measures

WaterJems pH Increaser

5.1. Extinguishing media

- Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
- Unsuitable extinguishing media : High volume water jet

5.2. Special hazards arising from the substance or mixture

- Specific hazards during firefighting : Incomplete combustion may form toxic pyrolysis products.
- Hazardous combustion products : Carbon monoxide, Carbon dioxide (CO₂)

5.3. Advice for firefighters

- Special protective equipment for firefighters : In the event of fire, wear self-contained breathing apparatus. Wear personal protective equipment.
- Further advice : Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

- Personal precautions : Use personal protective equipment. Keep away unprotected persons. Ensure adequate ventilation. Avoid contact with skin and eyes.

6.2. Environmental precautions

- Environmental precautions : Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration.

6.3. Methods and materials for containment and cleaning up

- Methods and materials for containment and cleaning up : Use mechanical handling equipment. Keep in suitable, closed containers for disposal.
- Further information : Treat recovered material as described in the section "Disposal considerations".

6.4. Reference to other sections

- See Section 1 for emergency contact information.
See Section 8 for information on personal protective equipment.
See Section 13 for waste treatment information.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

WaterJems pH Increaser

Advice on safe handling : Keep container tightly closed. Use personal protective equipment. Avoid dust formation. Ensure adequate ventilation. Avoid contact with skin, eyes and clothing. Emergency eye wash fountains and emergency showers should be available in the immediate vicinity.

Hygiene measures : Keep away from food, drink and animal feedingstuffs. Smoking, eating and drinking should be prohibited in the application area. Wash hands before breaks and at the end of workday. Take off all contaminated clothing immediately.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers : Store in original container. Suitable materials for containers: polyethylene; Unsuitable materials for containers: Aluminium

Advice on protection against fire and explosion : Normal measures for preventive fire protection.

Further information on storage conditions : Keep tightly closed in a dry and cool place. Product is hygroscopic.

Advice on common storage : Keep away from food, drink and animal feedingstuffs. Do not store near acids.

7.3. Specific end use(s)

Specific use(s) : Identified use: See table in front of appendix for a complete overview of identified uses.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Other Occupational Exposure Limit Values

(Additional) Information : Contains no substances with occupational exposure limit values.
Contains no substances with occupational exposure limit values.

Component: sodium carbonate CAS-No. 497-19-8

Derived No Effect Level (DNEL)/Derived Minimal Effect Level (DMEL)

DNEL
Workers, long-term, Inhalation : 10 mg/m³

DNEL
Consumers, Acute - local effects, Inhalation : 10 mg/m³

Predicted No Effect Concentration (PNEC)

WaterJems pH Increaser

Not applicable :

8.2. Exposure controls

Appropriate engineering controls

Refer to protective measures listed in sections 7 and 8.

Personal protective equipment

Respiratory protection

Advice : Required, if exposure limit is exceeded (e.g. OEL).
Respiratory protection complying with EN 141.
Respirator with a dust filter
Particle filter:P2
Particle filter:P3

Hand protection

Advice : Protective gloves complying with EN 374.
Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves.
Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.
Protective gloves should be replaced at first signs of wear.

Material : Natural Rubber
Break through time : ≥ 8 h
Glove thickness : 0.5 mm

Material : polychloroprene
Break through time : ≥ 8 h
Glove thickness : 0.5 mm

Material : Nitrile rubber
Break through time : ≥ 8 h
Glove thickness : 0.35 mm

Material : Fluorinated rubber
Break through time : ≥ 8 h
Glove thickness : 0.4 mm

Material : Polyvinylchloride
Break through time : ≥ 8 h
Glove thickness : 0.5 mm

Eye protection

WaterJems pH Increaser

Advice : Safety goggles

Skin and body protection

Advice : Wear personal protective equipment.

Environmental exposure controls

General advice : Do not flush into surface water or sanitary sewer system.
Avoid subsoil penetration.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Form	:	solid
Colour	:	white
Odour	:	odourless
Odour Threshold	:	no data available
pH	:	11.2 (1 g/l ; 20 °C)
Melting point/range	:	851 °C
Boiling point/boiling range	:	1,600 °C
Flash point	:	Not applicable
Evaporation rate	:	no data available
Flammability (solid, gas)	:	The product is not flammable.
Upper explosion limit	:	The product is not flammable.
Lower explosion limit	:	The product is not flammable.
Vapour pressure	:	Not applicable
Relative vapour density	:	no data available
Relative density	:	2.52 (20 °C) (EU Method A.3)
Water solubility	:	212.5 g/l (20 °C) (OECD Test Guideline 105) 71 g/l (0 °C)
Partition coefficient: n-octanol/water	:	no data available
Auto-ignition temperature	:	no data available

WaterJems pH Increaser

Thermal decomposition	:	> 400 °C
Viscosity, dynamic	:	Not applicable
Viscosity, kinematic	:	Not applicable
Explosivity	:	no data available
Oxidizing properties	:	no data available

9.2. Other information

Molecular weight	:	106 g/mol
Bulk density	:	0.5 - 0.6 kg/dm ³ Light soda ash 0.97 - 1.10 kg/dm ³ Dense soda ash

SECTION 10: Stability and reactivity

10.1. Reactivity

Advice : No decomposition if stored and applied as directed.

10.2. Chemical stability

Advice : Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions

Hazardous reactions : Product is hygroscopic. Contact with acids liberates carbon dioxide. In contact with metals generates hydrogen gas, which together with air can form explosive mixtures.

10.4. Conditions to avoid

Conditions to avoid : Protect from humidity and keep away from water.
Thermal decomposition : > 400 °C

10.5. Incompatible materials

Materials to avoid : Acids, Light metals, Aluminium powder

10.6. Hazardous decomposition products

Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Component:	sodium carbonate	CAS-No. 497-19-8
-------------------	-------------------------	-------------------------

Acute toxicity

WaterJems pH Increaser

Oral

LD50 : 2800 mg/kg body weight(Rat, male and female)

Inhalation

LC50 : 2.3 mg/l (Rat; 2 h) (OECD Test Guideline 403)Inhalation may cause pain and cough.

Dermal

LD50 : > 2000 mg/kg body weight(Rabbit) (US-EPA method)

Irritation

Skin

Result : No skin irritation (Rabbit) (OECD Test Guideline 404)

Eyes

Result : Severe eye irritation (Rabbit) (US-EPA method)

Sensitisation

Result : not sensitizing

CMR effects

CMR Properties

Carcinogenicity : Study scientifically not justified.
Mutagenicity : In vitro tests did not show mutagenic effects
Teratogenicity : Animal testing did not show any effects on foetal development.
Reproductive toxicity : Study scientifically not justified.

Specific Target Organ Toxicity

Single exposure

Remarks : The substance or mixture is not classified as specific target organ toxicant, single exposure.

Repeated exposure

Remarks : The substance or mixture is not classified as specific target organ

WaterJems pH Increaser

toxicant, repeated exposure.

Other toxic properties

Repeated dose toxicity

Sodium carbonate dissociates into ions that are present physiologically in relatively high levels in vertebrates. Therefore, repeated dose toxicity studies are considered (scientifically) unnecessary, in accordance with column 2 of REACH Annex VIII and IX.

Aspiration hazard

No aspiration toxicity classification,

SECTION 12: Ecological information

12.1. Toxicity

Component:	sodium carbonate	CAS-No. 497-19-8
-------------------	-------------------------	-------------------------

Acute toxicity

Fish

EC50 : 300 mg/l (Lepomis macrochirus; 96 h)

Toxicity to daphnia and other aquatic invertebrates

: 200 - 227 mg/l (Freshwater invertebrates; 48 h)

algae

: Study scientifically unjustified.

Bacteria

: Study scientifically unjustified.

Short-term (acute) aquatic hazard

WaterJems pH Increaser

Result : This product has no known ecotoxicological effects.
Study scientifically unjustified.

Chronic toxicity

Long-term (chronic) aquatic hazard

Result : Study scientifically unjustified.

12.2. Persistence and degradability

Component: sodium carbonate CAS-No. 497-19-8

Persistence and degradability

Persistence

Result : decomposition by hydrolysis.

Biodegradability

Result : The methods for determining the biological degradability are not applicable to inorganic substances.

12.3. Bioaccumulative potential

Component: sodium carbonate CAS-No. 497-19-8

Bioaccumulation

Result : Bioaccumulation is not expected.

12.4. Mobility in soil

Component: sodium carbonate CAS-No. 497-19-8

Mobility

: study scientifically unjustified

12.5. Results of PBT and vPvB assessment

Component: sodium carbonate CAS-No. 497-19-8

Results of PBT and vPvB assessment

Result : The PBT or vPvB criteria of Annex XIII to the REACH Regulation does not apply to inorganic substances.

12.6. Other adverse effects

WaterJems pH Increaser

Data for the product

Additional ecological information

Result : Do not flush into surface water or sanitary sewer system.
Avoid subsoil penetration.

Result :

Component: sodium carbonate CAS-No. 497-19-8

Additional ecological information

Result : Do not flush into surface water or sanitary sewer system.
Avoid subsoil penetration.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Product : Disposal together with normal waste is not allowed. Special disposal required according to local regulations. Do not let product enter drains. Contact waste disposal services.

Contaminated packaging : Empty contaminated packagings thoroughly. They can be recycled after thorough and proper cleaning. If recycling is not practicable, dispose of in compliance with local regulations.

European Waste Catalogue Number : No waste code according to the European Waste Catalogue can be assigned for this product, as the intended use dictates the assignment. The waste code is established in consultation with the regional waste disposer.

SECTION 14: Transport information

Not dangerous goods for ADR, RID, IMDG and IATA.

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

Not applicable.

14.4. Packaging group

Not applicable.

WaterJems pH Increaser

14.5. Environmental hazards

Not applicable.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

IMDG : Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Component:	sodium carbonate	CAS-No. 497-19-8
-------------------	-------------------------	-------------------------

EU. Regulation EU No. 649/2012 concerning the export and import of dangerous chemicals : ; The substance/mixture does not fall under this legislation.

EU. REACH, Annex XVII, Marketing and Use Restrictions (Regulation 1907/2006/EC) : ; The substance/mixture does not fall under this legislation.

EU. Regulation No 1451/2007 [Biocides], Annex I, OJ (L 325) : EC Number: , 207-838-8; Listed

EU. Directive 2012/18/EU (SEVESO III) Annex I : ; The substance/mixture does not fall under this legislation.

Notification status sodium carbonate:

Regulatory List	Notification	Notification number
AICS	YES	
DSL	YES	
EINECS	YES	207-838-8
ENCS (JP)	YES	(1)-164

WaterJems pH Increaser

IECSC	YES	
ISHL (JP)	YES	(1)-164
KECI (KR)	YES	KE-31380
NZIOC	YES	HSR003265
PICCS (PH)	YES	
TSCA	YES	

15.2. Chemical safety assessment

no data available

SECTION 16: Other information

Full text of H-Statements referred to under sections 2 and 3.

H319 Causes serious eye irritation.

Abbreviations and Acronyms

BCF	bioconcentration factor
BOD	biochemical oxygen demand
CAS	Chemical Abstracts Service
CLP	Classification, Labelling and Packaging
CMR	carcinogenic, mutagenic or toxic to reproduction
COD	chemical oxygen demand
DNEL	derived no-effect level
EINECS	European Inventory of Existing Commercial Chemical Substances
ELINCS	European List of Notified Chemical Substances
GHS	Globally Harmonized System of Classification and Labelling of Chemicals
LC50	median lethal concentration
LOAEC	lowest observed adverse effect concentration
LOAEL	lowest observed adverse effect level
LOEL	lowest observed effect level
NLP	no-longer polymer
NOAEC	no observed adverse effect concentration
NOAEL	no observed adverse effect level
NOEC	no observed effect concentration
NOEL	no observed effect level
OECD	Organisation for Economic Cooperation and Development
OEL	occupational exposure limit
PBT	persistent, bioaccumulative and toxic
REACH Auth. No.:	REACH Authorisation Number
REACH AuthAppC. No.	REACH Authorisation Application Consultation Number

WaterJems pH Increaser

PNEC	predicted no-effect concentration
STOT	specific target organ toxicity
SVHC	substance of very high concern
UVCB	substance of unknown or variable composition, complex reaction products or biological materials
vPvB	very persistent and very bioaccumulative
Further information	

Key literature references and sources for data : Supplier information and data from the "Database of registered substances" of the European Chemicals Agency (ECHA) were used to create this safety data sheet.

Methods used for product classification : The classification for human health, physical and chemical hazards and environmental hazards were derived from a combination of calculation methods and if available test data.

Hints for trainings : The workers have to be trained regularly on the safe handling of the products based on the information provided in the Safety Data Sheet and the local conditions of the workplace. National regulations for the training of workers in the handling of hazardous materials must be adhered to.

Other information : The information provided in this Safety Data Sheet is correct to our knowledge at the date of its revision. The information given only describes the products with regard to safety arrangements and is not to be considered as a warranty or quality specification and does not constitute a legal relationship.
The information contained in this Safety Data Sheet relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process, unless specified in the text.

|| Indicates updated section.

WaterJems pH Increaser

WaterJems pH Increaser

1. Short title of Exposure Scenario 1: Manufacture of substance

Main User Groups	SU 3: Industrial uses: Uses of substances as such or in preparations at industrial sites
Sectors of end-use	SU8: Manufacture of bulk, large scale chemicals (including petroleum products)
Process categories	<p>PROC1: Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions</p> <p>PROC2: Use in closed, continuous process with occasional controlled exposure</p> <p>PROC3: Manufacture or formulation in the chemical industry in closed batch processes with occasional controlled exposure or processes with equivalent containment condition</p> <p>PROC4: Use in batch and other process (synthesis) where opportunity for exposure arises</p> <p>PROC8a: Transfer of substance or preparation (charging/ discharging) from/ to vessels/ large containers at non-dedicated facilities</p> <p>PROC8b: Transfer of substance or preparation (charging/ discharging) from/ to vessels/ large containers at dedicated facilities</p> <p>PROC9: Transfer of substance or preparation into small containers (dedicated filling line, including weighing)</p> <p>PROC22: Manufacturing and processing of minerals and/or metals at substantially elevated temperature</p>
Environmental Release Categories	ERC1: Manufacture of substances

2.1 Contributing scenario controlling environmental exposure for: ERC1

Amount used	Annual site tonnage	1.5 Million tonnes/year
Frequency and duration of use	Continuous exposure	Continuous release
Technical conditions and measures at process level to prevent release	Water	Wastewater streams from production sites contain inorganic substances and are therefore not treated in sewage treatment plants
Technical onsite conditions and measures to reduce or limit discharges, air emissions and releases to soil		
Organizational measures to prevent/limit release from the site		
Conditions and measures related to external treatment of waste for disposal	Waste treatment	No specific waste treatment required/proposed

2.2 Contributing scenario controlling worker exposure for: PROC1, PROC2, PROC3, PROC4, PROC8a, PROC8b, PROC9, PROC22

Product characteristics	Concentration of the Substance in Mixture/Article	Covers percentage substance in the product up to 25 %.
	Physical Form (at time of use)	solid
Amount used	Not applicable	
Frequency and duration of use	Exposure duration per day	<= 8 h
Organisational measures to prevent /limit releases, dispersion and exposure	Provide basic employee training to prevent/minimize exposures	

3. Exposure estimation and reference to its source

Environment

WaterJems pH Increaser

Contributing Scenario	Specific conditions	Compartment	Value	Level of Exposure	RCR
---	---	Air	---	2.2 - 118 kg/day	---

Workers

ECETOC TRA Version 2 with modifications has been used
Workplace measurements

Contributing Scenario	Specific conditions	Exposure routes	Level of Exposure	RCR
---	8 hours/day, Modeled exposure data	Inhalation worker exposure	7.9mg/m ³	---
PROC1	8 hours/day, Modeled exposure data	Inhalation worker exposure	0.01mg/m ³	---
PROC2	8 hours/day, Modeled exposure data	Inhalation worker exposure	0.5mg/m ³	---
PROC3, PROC22	8 hours/day, Modeled exposure data	Inhalation worker exposure	1mg/m ³	---
PROC4, PROC8a, PROC8b, PROC9	8 hours/day, Modeled exposure data	Inhalation worker exposure	5mg/m ³	---

Measured exposure data.

4. Guidance to Downstream User to evaluate whether he works inside the boundaries set by the Exposure Scenario

Guidance is based on assumed operating conditions which may not be applicable to all sites. Where other Risk Management Measures/Operational Conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.
Not applicable

WaterJems pH Increaser

1. Short title of Exposure Scenario 2: Formulation & (re)packing of substances and mixtures

Main User Groups	SU 3: Industrial uses: Uses of substances as such or in preparations at industrial sites
Sectors of end-use	SU 10: Formulation [mixing] of preparations and/ or re-packaging (excluding alloys)
Process categories	<p>PROC1: Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions</p> <p>PROC2: Use in closed, continuous process with occasional controlled exposure</p> <p>PROC3: Manufacture or formulation in the chemical industry in closed batch processes with occasional controlled exposure or processes with equivalent containment condition</p> <p>PROC5: Mixing or blending in batch processes for formulation of preparations and articles (multistage and/ or significant contact)</p> <p>PROC8a: Transfer of substance or preparation (charging/ discharging) from/ to vessels/ large containers at non-dedicated facilities</p> <p>PROC8b: Transfer of substance or preparation (charging/ discharging) from/ to vessels/ large containers at dedicated facilities</p> <p>PROC9: Transfer of substance or preparation into small containers (dedicated filling line, including weighing)</p> <p>PROC14: Production of preparations or articles by tableting, compression, extrusion, pelletisation</p> <p>PROC15: Use as laboratory reagent</p>
Environmental Release Categories	ERC2: Formulation of preparations

2.1 Contributing scenario controlling environmental exposure for: ERC2

Amount used	Annual amount per site	<= 5000 ton(s)/year
Frequency and duration of use	Continuous exposure	Continuous release
Technical conditions and measures at process level to prevent release Technical onsite conditions and measures to reduce or limit discharges, air emissions and releases to soil Organizational measures to prevent/limit release from the site	Air	Exhaust ventilation equipped with filters.
Conditions and measures related to sewage treatment plant	Sludge Treatment	pH adjustment
Conditions and measures related to external treatment of waste for disposal	Waste treatment	No specific waste treatment required/proposed

2.2 Contributing scenario controlling worker exposure for: PROC1, PROC2, PROC3, PROC5, PROC8a, PROC8b, PROC9, PROC14, PROC15

Product characteristics	Concentration of the Substance in Mixture/Article	Covers percentage substance in the product up to 100 %.
	Physical Form (at time of use)	solid
	During use, dust is formed.	
Frequency and duration of use	Frequency of use	8 hours/day

3. Exposure estimation and reference to its source

Environment

WaterJems pH Increaser

Contributing Scenario	Specific conditions	Compartment	Value	Level of Exposure	RCR
---	---	Air	---	2.7 kg/day	---

Exposure is considered negligible.

Workers

PROC1, PROC2, PROC3, PROC4, PROC5, PROC8a, PROC8b, PROC9, PROC14, PROC15: ECETOC TRA Version 2 with modifications has been used

Contributing Scenario	Specific conditions	Exposure routes	Level of Exposure	RCR
PROC1	---	Inhalation worker exposure	0.01mg/m ³	---
PROC2, PROC15	---	Inhalation worker exposure	0.5mg/m ³	---
PROC3	---	Inhalation worker exposure	1mg/m ³	---
PROC4, PROC5, PROC8a, PROC8b, PROC9	---	Inhalation worker exposure	5mg/m ³	---
PROC14	---	Inhalation worker exposure	1mg/m ³	---

4. Guidance to Downstream User to evaluate whether he works inside the boundaries set by the Exposure Scenario

Guidance is based on assumed operating conditions which may not be applicable to all sites. Where other Risk Management Measures/Operational Conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.

WaterJems pH Increaser

1. Short title of Exposure Scenario 3: Use in glass production

Main User Groups	SU 3: Industrial uses: Uses of substances as such or in preparations at industrial sites
Process categories	<p>PROC1: Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions</p> <p>PROC2: Use in closed, continuous process with occasional controlled exposure</p> <p>PROC3: Manufacture or formulation in the chemical industry in closed batch processes with occasional controlled exposure or processes with equivalent containment condition</p> <p>PROC4: Use in batch and other process (synthesis) where opportunity for exposure arises</p> <p>PROC8a: Transfer of substance or preparation (charging/ discharging) from/ to vessels/ large containers at non-dedicated facilities</p> <p>PROC8b: Transfer of substance or preparation (charging/ discharging) from/ to vessels/ large containers at dedicated facilities</p> <p>PROC22: Manufacturing and processing of minerals and/or metals at substantially elevated temperature</p> <p>PROC23: Open processing and transfer operations with minerals/ metals at elevated temperature</p> <p>PROC26: Handling of solid inorganic substances at ambient temperature</p>
Environmental Release Categories	ERC6a: Industrial use resulting in manufacture of another substance (use of intermediates)

2.1 Contributing scenario controlling environmental exposure for: ERC6a

Amount used	Annual amount per site	200000 ton(s)/year
Frequency and duration of use	Continuous exposure	Continuous release
Technical conditions and measures at process level to prevent release Technical onsite conditions and measures to reduce or limit discharges, air emissions and releases to soil Organizational measures to prevent/limit release from the site	Air	Exhaust ventilation equipped with filters.
Conditions and measures related to sewage treatment plant	Wastewater emission controls are not applicable as there is no direct release to wastewater.	
Conditions and measures related to external treatment of waste for disposal	Waste treatment	No specific waste treatment required/proposed

2.2 Contributing scenario controlling worker exposure for: PROC1, PROC2, PROC3, PROC4, PROC8a, PROC8b, PROC22, PROC23, PROC26

Product characteristics	Concentration of the Substance in Mixture/Article	Concentration of substance in product: 5% - 25%
	Physical Form (at time of use)	solid
	During use, dust is formed.	
Frequency and duration of use	Frequency of use	8 hours/day
Other operational conditions affecting workers exposure	Solid, medium dustiness	

3. Exposure estimation and reference to its source

Environment

WaterJems pH Increaser

Exposure is considered negligible.

Workers

PROC1, PROC2, PROC3, PROC4, PROC8a, PROC8b, PROC22, PROC23: ECETOC TRA Version 2 with modifications has been used

Contributing Scenario	Specific conditions	Exposure routes	Level of Exposure	RCR
PROC1	---	Inhalation worker exposure	0.01 mg/m ³	---
PROC2	---	Inhalation worker exposure	0.5 mg/m ³	---
PROC3	---	Inhalation worker exposure	1 mg/m ³	---
PROC4, PROC8a, PROC8b	---	Inhalation worker exposure	5 mg/m ³	---
PROC22, PROC23	---	Inhalation worker exposure	1 mg/m ³	---

4. Guidance to Downstream User to evaluate whether he works inside the boundaries set by the Exposure Scenario

Guidance is based on assumed operating conditions which may not be applicable to all sites; thus, scaling may be necessary to define appropriate site-specific risk management measures. Where other risk management measures/operational conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.

WaterJems pH Increaser

1. Short title of Exposure Scenario 4: Industrial use

Main User Groups	SU 3: Industrial uses: Uses of substances as such or in preparations at industrial sites
Process categories	<p>PROC1: Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions</p> <p>PROC2: Use in closed, continuous process with occasional controlled exposure</p> <p>PROC3: Manufacture or formulation in the chemical industry in closed batch processes with occasional controlled exposure or processes with equivalent containment condition</p> <p>PROC4: Use in batch and other process (synthesis) where opportunity for exposure arises</p> <p>PROC7: Industrial spraying</p> <p>PROC8a: Transfer of substance or preparation (charging/ discharging) from/ to vessels/ large containers at non-dedicated facilities</p> <p>PROC8b: Transfer of substance or preparation (charging/ discharging) from/ to vessels/ large containers at dedicated facilities</p> <p>PROC9: Transfer of substance or preparation into small containers (dedicated filling line, including weighing)</p> <p>PROC10: Roller application or brushing</p> <p>PROC13: Treatment of articles by dipping and pouring</p> <p>PROC15: Use as laboratory reagent</p> <p>PROC17: Lubrication at high energy conditions and in partly open process</p> <p>PROC18: Greasing at high energy conditions</p> <p>PROC19: Hand-mixing with intimate contact and only PPE available</p> <p>PROC22: Manufacturing and processing of minerals and/or metals at substantially elevated temperature</p> <p>PROC23: Open processing and transfer operations with minerals/ metals at elevated temperature</p> <p>PROC26: Handling of solid inorganic substances at ambient temperature</p>
Environmental Release Categories	<p>ERC4: Industrial use of processing aids in processes and products, not becoming part of articles</p> <p>ERC5: Industrial use resulting in inclusion into or onto a matrix</p> <p>ERC6a: Industrial use resulting in manufacture of another substance (use of intermediates)</p> <p>ERC6b: Industrial use of reactive processing aids</p> <p>ERC6d: Industrial use of process regulators for polymerisation processes in production of resins, rubbers, polymers</p> <p>ERC7: Industrial use of substances in closed systems</p>

2.1 Contributing scenario controlling environmental exposure for: ERC4, ERC5, ERC6a, ERC6b, ERC6d, ERC7

Amount used	Annual amount per site	<= 100000 ton(s)/year
Frequency and duration of use	Continuous exposure	Continuous release
Technical conditions and measures at process level to prevent release Technical onsite conditions and measures to reduce or limit discharges, air emissions and releases to soil Organizational measures to prevent/limit release from the site	Air	Exhaust ventilation equipped with filters.
Conditions and measures related to sewage treatment plant	Sludge Treatment	pH adjustment
	No specific measures required.	
Conditions and measures related to external treatment of waste for disposal	No wastewater treatment required.	

WaterJems pH Increaser

2.2 Contributing scenario controlling worker exposure for: PROC1, PROC2, PROC3, PROC4, PROC7, PROC8a, PROC8b, PROC9, PROC10, PROC13, PROC15, PROC17, PROC18, PROC19, PROC22, PROC23, PROC26

Product characteristics	Concentration of the Substance in Mixture/Article	Covers percentage substance in the product up to 100 %.
	Physical Form (at time of use)	solid
	During use, dust is formed.	
Frequency and duration of use	Frequency of use	> 8 hours/day

3. Exposure estimation and reference to its source

Environment

Contributing Scenario	Specific conditions	Compartment	Value	Level of Exposure	RCR
---	---	Air	---	---	---
---	---	Soil	---	---	---

Small releases might be possible. Exposure is considered negligible.

Workers

Contributing Scenario	Specific conditions	Exposure routes	Level of Exposure	RCR
PROC1	---	Inhalation worker exposure	0.01mg/m ³	---
PROC2	solid	Inhalation worker exposure	0.5mg/m ³	---
PROC3	solid	Inhalation worker exposure	1mg/m ³	---
PROC4, PROC8a, PROC19	---	Inhalation worker exposure	5mg/m ³	---
PROC8b, PROC9, PROC15, PROC26	solid	Inhalation worker exposure	5mg/m ³	---
PROC7	---	Inhalation worker exposure	0.022mg/m ³	---
PROC17, PROC18	liquid	Inhalation worker exposure	0.022mg/m ³	---
PROC22, PROC23	---	Inhalation worker exposure	1mg/m ³	---

4. Guidance to Downstream User to evaluate whether he works inside the boundaries set by the Exposure Scenario

Guidance is based on assumed operating conditions which may not be applicable to all sites. Where other Risk Management Measures/Operational Conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.

Amount used	The amount of substance used is not considered relevant for these operations.	
-------------	---	--

Frequency and duration of use	Continuous exposure	Not relevant
-------------------------------	---------------------	--------------

2.2 Contributing scenario controlling consumer exposure for: PC35: Laundry regular, PC35: Laundry compact, PC35: Laundry additive, PC35: Dish washing products, PC35: Surface cleaners

Product characteristics	Concentration of the Substance in Mixture/Article	Covers concentrations up to 30%
	Physical Form (at time of use)	liquid, solid, powder

Amount used		<= 37 g/l
-------------	--	-----------

Frequency and duration of use	Frequency of use	1 events/week
-------------------------------	------------------	---------------

Conditions and measures related to protection of consumer (e.g. behavioural advice, personal protection and hygiene)	Consumer Measures	Keep out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water
--	-------------------	--

2.6 Contributing scenario controlling consumer exposure for: PC3

Product characteristics	Concentration of the Substance in Mixture/Article	Covers percentage substance in the product up to 5%.
	Physical Form (at time of use)	liquid, solid

Amount used		<= 37 g/l
-------------	--	-----------

Frequency and duration of use	Frequency of use	1 events/week
-------------------------------	------------------	---------------

Conditions and measures related to protection of consumer (e.g. behavioural advice, personal protection and hygiene)	Consumer Measures	Keep out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water
--	-------------------	--

2.7 Contributing scenario controlling consumer exposure for: PC31

Product characteristics	Concentration of the Substance in Mixture/Article	Covers concentrations up to 10%
	Physical Form (at time of use)	liquid, solid

Amount used		<= 37 g/l
-------------	--	-----------

Frequency and duration of use	Frequency of use	1 events/week
-------------------------------	------------------	---------------

Conditions and measures related to protection of consumer (e.g. behavioural advice, personal protection and hygiene)	Consumer Measures	Keep out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water
--	-------------------	--

3. Exposure estimation and reference to its source

Environment

Exposure is considered negligible.

Consumers

PC35: REACT (Reach Exposure Assessment Consumer Tool)

WaterJems pH Increaser

Contributing Scenario	Specific conditions	Exposure routes	Level of Exposure	RCR
PC35	Laundry regular, powder	Consumer - dermal, long-term - systemic	0.0156mg/kg bw/day	---
PC35	Laundry regular, liquid	Consumer - dermal, long-term - systemic	0.0229mg/kg bw/day	---
PC35	Laundry compact, powder	Consumer - dermal, long-term - systemic	0.0160mg/kg bw/day	---
PC35	Laundry compact, liquid	Consumer - dermal, long-term - systemic	0.0229mg/kg bw/day	---
PC35	Laundry additive, Laundry bleaching/pre-treatment	Consumer - dermal, long-term - systemic	0.0221mg/kg bw/day	---
PC35	Hand dishwashing liquids	Consumer - dermal, long-term - systemic	0.000312mg/kg bw/day	---
PC35	Surface cleaners, gel	Consumer - dermal, long-term - systemic	0.0429mg/kg bw/day	---

4. Guidance to Downstream User to evaluate whether he works inside the boundaries set by the Exposure Scenario

Guidance is based on assumed operating conditions which may not be applicable to all sites. Where other Risk Management Measures/Operational Conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.
